1953-54 WHOLESALE PRICE LIST

CAMELLIAS - AZALEAS - EVERGREENS - ORNAMENTALS

Conditions of Sale

Acceptance of Orders: We accept all orders on condition that same shall be void should any injury befall our stock from fire, frost, floods, drouth, or any other cause which could not be prevented and over which we have no control.

Guarantee: We exercise great care to have our nursery stock true to name; nevertheless it is understood that should any stock prove otherwise, we shall not be liable for any sum greater than that paid us for only such stock as shall prove untrue.

Terms of Payment: Cash must accompany order, unless established account with us. All charge accounts due within thirty days. Past due accounts subject to legal rate of interest and sight draft.

Claims: Claims must be made within five days of receipt of goods. Claims for damage or delay in transit should be filed with the transportation company. You pay an insurance charge on your shipment which entitles you to a claim in case of delay or damage. We shall be glad to assist you in any way we can.

Packing: Our plants are packed lightly but securely to protect from breakage and freezing. No charge is made for packing the pot grown Azaleas and Camellias. Packing at cost on gallon and larger container grown plants.

Prices: All prices are subject to change without notice. This list cancels all previous lists and all plants listed are subject to stock on hand to prior sales.

Minimum Quantities: Please do not order less than: 25 in 4" pots - 5 of a variety; 10 in gallons - 5 in variety.

Pinto Tag: We are an Authorized Pinto Tag Nursery. Having complied with the rigid plant inspection requirements of the California Department of Agriculture, we are permitted to ship to other counties without destination inspection.

We extend a cordial invitation to visit our nursery and see for yourself the quality of our Camellias, Azaleas and other Ornamentals. Our office and sales yard is located on Highway 66 (Foothill Blvd.) one mile east of famous Euclid Avenue. See Map on back cover. We are open from 7:30 A.M. to 5:00 P.M. week days and until noon Saturdays. Closed Sundays.

1953-54 WHOLESALE PRICE LISTPART I - CAMELLIAS

The following is our complete Wholesale Price List of Camellias for the 1953-1954 Season. We reserve the right to limit varieties of which we are short, in proportion to the number of more plentiful varieties ordered.

Our Camellia rooted cuttings are planted in the early Spring, direct to 4-inch pots to avoid the roots becoming pot-bound, which is very often the case in the smaller pots. The following Spring we shift these 4" plants to gallons assuring a strong and healthy root system. Many larger sizes are 2-year gallons.

Terms of Sale: Cash must accompany orders unless an established account with us. Packing at cost, on gallons and larger. All prices are subject to change without further notice.

Adolphe Audusson Variegated: Dark red spotted white, large semi-double. M.			Anne Lindberg: Rose red, medium large, semi-peony form. Vigorous, upright growth. M-L.

We have strived to select varieties of Camellias best suited for cut flower and corsage use, and at the same time not overlooking the need of a wide selection of showy garden varieties. We are always on the lookout for good new varieties.

Classifications used in the above list taken from those adopted by the Camellia Societies of California as follows:

Single - One row of not over eight petals. Example: Amabilis.

Semi-double - Two or more rows of petals, conspicuous stamens. Example: Finlandia.

Anemone form - A flat flower with one or more rows of large outer petals, the center a convex mass, composed of petaloids and stamens intermingled.

Example: Chandleri Elegans.

Peony Form - A deep rounded flower with several rows of outer petals, the center a convex mass of twisted petaloids and stamens. Example: Debutante.

Rose Form - Imbricated petals, showing stamens in a concave center when fully open. Example: Purity.

Formal Double - Fully imbricated, many rows of petals never showing stamens. Example: Alba Plena.

Southern States - In compliance with the quarantine regulations of some of the Southern States, Camellias imported from California. Our camellias are carefully washed of all soil and the "bare-roots" are packed in damp sphagnum moss and wrapped in oil paper. The plants are then packed in sealed corrugated cartons. This method of packing assures a moist root-system upon arrival.

Rooted cuttings available April through August. List of varieties and prices will be mailed after the first of the year. We specialize in Fuji and Spiders.

INDICA AZALEA ERIC SCHAME

AZALEAS

Their bright color and wonderful display potentiality make them favorites both in the nursery and in your customer's gardens. The indicas excel in double blooms, while the kurumes make matchless landscape subjects.
